Margaret L. Workman Re: Friends of Margaret L. Workman

September 1, 2005

Federal Election Commission Attention: John D. Gibson Reports Analysis Division 999 E Street, NW Washington, D. C. 20463

Dear FEC:

I am writing to advise that we are working very hard to try to correct the discrepance which occurred between our last two reports ending and starting balances. It is a software problem and the error is being corrected. Your agency wrote, directing that there be an explanation by August 22, 2005, and it has taken me this long to get my computer person and the NGP software person who is helping us try to sort this out together.

I believe our reports are up to date, except for this discrepancy, which was an error in how the software was utilized.. We are attempting to work out an agreement on outstanding fines so we can close the committee, and we are really trying to get the reports filed timely and correctly until it can be closed. There is no activity whatsoever in the committee, neither receipts or disbursements.

I would appreciate it if you would record that we are attempting to make all necessary corrections. Thank you.

Sincerely,

mountendy
